

SPIDER-MAN

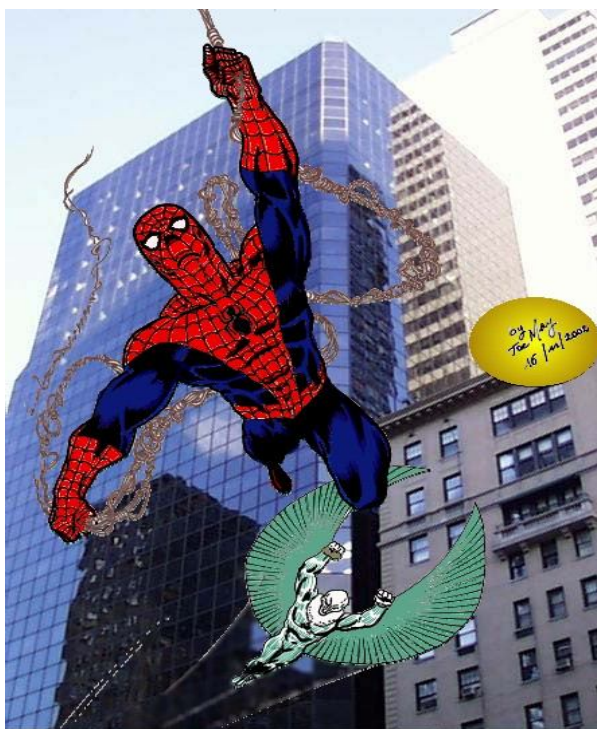

And his Superhero friends

Issue 1

The Battle – part 1

One day spider-man was swinging through the city when the Vulture flew down from the sky and attacked him. Luckily Spider-man's "spidee" sense detected him and he got out of the way just in time!

Vulture grabbed hold of Spider-man's foot and swung him around. As he did this Spider-man covered him with his special web and they both began to fall.

Vulture began to cry like a big baby and Spider-man saved him in one of his webs.

Then he heard a noise, and up in the sky was the autobot space ship. The autobots were fighting the Decepticon spaceships, Spider-man swung up to help them. Spiderman could see the evil Megatron so he fired his web over Megatron's eyes and tied him up in his web.

The day was starting to get very bad, just as Spiderman thought all the baddies had been defeated Dr Doom and his army arrived. Luckily Spider-man's friends, the Avengers had been following Dr Doom's army of bad guys. Spider-man fought the bad guys with the help of his friends and soon they had all been captured and sent to jail.
